## The Faulty Logic of the COVID-19 scam

If the masks work—Why the six feet?

If the six feet works—Why the masks?

If both of the above work—Why the lockdowns?

If all three of the above work—Why the vaccine?

If the vaccine is safe—Why protect it with a no liability clause?

If the vaccine is safe---Why not test it on animals first before using it on humans?

If SARS-CoV-2 exists—Why has it never been isolated?

If SARS-CoV-2 has never been isolated—How can an effective vaccine be developed?

If the RT-PCR test works—Why so many false positives?

If Kary Mullis, the inventor of the RT-PCR test who conveniently died in August 2019, says his test shouldn't be used to diagnose infectious diseases—Why use it to detect SARS-CoV-2?

If there is an epidemic---Why so many empty hospitals?

If large numbers of people are dying from SARS-CoV-2---Why so many fake causes of death on death certificates?

If SARS-CoV-2 exists—Why give doctors financial incentives to diagnose SARS-CoV-2?

If the official COVID-19 narrative is defensible—Why censor people who dispute this narrative?
